MY SCHOOL

My school's name is Matthias Király primary school. My school is in Csepel, in the suburbs. It is more than 75 years old. There are about 400 students and there are about 40 teachers. There are sixteen classes. I go to the seventh grade to 7A/Z.

A is an IT (information technology) class, there are more IT lessons.

Z is a music class, where the kids go to concerts and to a music camp in September.

My form master is _____. The school's head master is Katalin Juhász.

I like my classmates; they are usually helpful and nice. My best friend(s) is (are) _____. We often play football/talk/laugh (kiejtése: láf) a lot at breaks. After school we sometimes ride our bikes, go fishing, go to the cinema or play computer games together.

I usually have 6 or 7 lessons a day. School starts at 8 o'clock and it finishes before one or two o'clock.

My favourite subject(s) is/are _____, _____ and _____ because it's interesting.
because I like the teacher.
because I think it's very important.
because it's easy to learn/study.

My favourite teacher is _____, because (s)he has interesting lessons and (s)he is strict/correct/nice/fair funny _____.

I have been learning English for _____ years now. I think the most difficult part of learning is the grammar/speaking/listening/vocabulary/writing. My English teacher is Gergely Kis.

In my opinion learning English is important/useful because....

- if you travel you can speak to everybody.
- I can have a better job when I'm older
- I'm interested in films, music and computer games and I often surf the net and everything is in English
- you must speak a foreign (kiejtése:forin) language.

I'm good at.... Literature because I like reading poems
Geography because I like learning about different countries.
Music, I play an instrument. I play the _____
Art because I like drawing and painting.
Biology because I like nature and animals.

I'm poor/bad at _____ because I think it's not interesting.

because it's boring.
because it's too difficult (for me).

After school I usually study for 1/2/3 hours. At the weekend I study about 3 hours.

There are some extra activities at our school: The **disco** where we can dance and have fun. On **Matyás-day** in February classes compete against each other. For the 8th grade there is **MediaMarathon** in December and in summer we have a **school camp** in Sarkad. Every year, in spring, we go on a **class trip**. This year we went to Slovakia. We went there by bus.....

At our school we have some rules for example:

Boys mustn't wear earrings. We mustn't eat during lessons, swear, smoke or fight, run in the corridors.
At school we must study, pay attention or listen to the teacher. We must be on time. (We mustn't be late).
We must write/do our homework.
